Summary

As a Software Developer IV at Astreya, I design, develop, and
implement ETL/ELT processes using Azure Databricks, Python,
and Kafka. I also work with Angular and Django to create web
applications and REST APIs. I lead a team of four developers to
deliver automated data pipelines from various sources, ensuring
reliability, efficiency, and data quality.

I have 5+ years of IT experience in the information industry, working
with different integration platforms and the Hadoop ecosystem. I
have a strong understanding of relational databases, business data,
and storage concepts. I am proficient in Python, C++, and Scala,
and have a good knowledge of algorithms and data structures. I hold
multiple certifications, including AWS Certified Solutions Architect –
Associate, UiPath RPA Developer Advanced, and Infosys Certified
Google Associate Cloud Engineer. I graduated with a Bachelor of
Technology in Electrical Engineering from SKIT Jaipur in 2018. I am
passionate about data engineering and web development, and I am
always eager to learn new technologies and skills.
